Mission

I'm Kohji Noguchi, junior front-end developer and **YMS (work visa)** holder based in London with a desire to work on email design and development. While I have been working in front-end development I have been able to practice and pursue my interest in digital email design. I am looking for a position as an email developer in a collaborative environment where I can use my knowledge of front-end coding while learning and pursuing a career in email design and development.

Experience

Kanikapila Design Inc.,

2019 - 2020 – Tokyo, Japan

Full time junior front-end developer in charge of making several leading company websites with html, css, and jQuery. In addition to coding, I was working in Photoshop, Illustrator and XD to create parts designs, fixing images and worked closely with other teams through several projects. To mentor new developer was my responsibility as well.

Wan55 Inc.,

2018 (1 mo.) – Tokyo, Japan

Intern front-end developer in charge of making several landing pages with html, css, jQuery and designing banners with Photoshop.

Digital Circus Inc.,

2018 (3 mo.) – Tokyo, Japan

Dispatched contract as junior front-end developer in charge of making leading chemical company website with html, css, jQuery and cms (drupal).

Sakai Heavy Industries, Ltd

2012- 2015 – Tokyo, Japan

Full time international sales in charge of making trade documents, managing foreign distributors, arranging for an international meeting, visiting local clients for sales promotion, presentations, workshops.
