Intouch Games Ltd.

The Hiring Committee :

I am in search of Japanese speaking Digital Designer position at Intouch Games Ltd. where I can work globally with people who have different kinds of backgrounds and I can apply my native Japanese language for your team.

I have a wide-ranging subset of the following skills, but more importantly, as a continuous learner, I don't hesitate to constantly learn and experiment to deliver the best possible product to the client. Please note my current technical skillset that I will bring to the team.

- Native Japanese speaker with great business writing and verbal skills
- Have Adobe Creative Suite skills
- Have experience of designing and developing the web landing page
- Have experience of using mockup design tools (Adobe XD / Sketch / Invision / Figma)
- Have skills in HTML(5) and CSS(3)
- Have basic UX-UI Design skills and experience working with Front-End Development teams
- Advanced English proficiency
- Have a strong interest in the game industry
- Have experience of finding the bug and debugging
- Familiar with game consoles and IT skills

Allow me the opportunity, to present to you in person, in an interview, how I may best fit this position.

Sincerely

Kohji Noguchi

Mission

I'm Kohji Noguchi, junior front-end developer and **YMS (work visa)** holder based in London with a desire to work on design and development. While I have been working in front-end development I have been able to practice and pursue my interest in digital design. I am looking for a position as a designer in a collaborative environment where I can use my knowledge of front-end coding while learning and pursuing a career in design and development.

Experience

Kanikapila Design Inc.,

2019 - 2020 – Tokyo, Japan

Full-time junior front-end developer in charge of not only developing several leading company websites but also managing customers as the liaison. Succeeded in suggesting the best solution to meet the client's request by providing coherence to existing web sites.

Wan55 Inc.,

2018 (1 mo.) – Tokyo, Japan

Intern front-end developer in charge of making several landing pages with html, css, jQuery and designing banners with Photoshop.

Digital Circus Inc.,

2018 (3 mo.) – Tokyo, Japan

Dispatched contract as a junior front-end developer in charge of making leading chemical company website with html, css, jQuery, and cms (drupal). Achieved precise updating tasks by a detailed report, verification and sharing problems under a short deadline.

Sakai Heavy Industries, Ltd

2012- 2015 – Tokyo, Japan

Full-time international sales in charge of making trade documents, managing foreign distributors, arranging for an international meeting. Contributed 70% sales revenue of small machines in the whole international sales division by negotiating with the internal product management section and customers.

Education

Mentored by Liz Harman, Software Product Designer at Mark43
